We have made it a rule to not give out any copies of The Times before they are put in the postoffice. We make this mention so that those who have been making it a practice of getting the paper before it is mailed, will understand it if they are turned down. This is an old rule of all regulated newspapers, and we propose to adhere to it in the future.

Feast and your friends are many; fast and they eat you dead; they'll not get mad if you treat them bad, so long as their stomachs are fed. Steal if you get a million, for then you can furnish bail; it's the great big thief who gets out on leave, while the little ones get to jail. Advertise and the dollars come to you, quite and they fail to come in, for what care the men who have money to spend, for the men who don't care to see them.

Just at this time the mail order houses are active in flooding the country with big, handsomely gotten up catalogues, quoting attractive prices on staple articles and making all sorts of big sounding claims for your cash. They do not offer to exchange their goods for the farmer's eggs, poultry, butter or other produce. They don't trust a penny's worth, but make you pay cash before you get the goods and the freight besides. If anything is wrong with the goods or they do not suit you, they will not exchange them. They pay no taxes into your city or county treasury, with which your schools are maintained, roads, bridges, and sidewalks built. They do not contribute to our churches, charitable institutions, nor to our poor.

The town put the "lid" on coca cola good and strong last Sunday and those whose palates called for "cold dope" every Sunday could only be quenched with water. In the afternoon some fellow placed on the front of the post office the following notice, with a piece of crepe around it. "The relatives and friends of Col. Cold Sunday Dope, who came to his sudden and untimely end at 7:30 this a.m., are respectfully invited to attend funeral services to be held at 12 o'clock to night."

A wisely conducted newspaper is like a banquet, says an exchange. Everything is served up with a view to variety. Help yourself to what you want and do not condemn the entire spread because pickles and onions may be included. If you do not relish them somebody else may find them palatable. Be generous and broad enough to select gracefully such reading matter from newspapers as will be agreeable to your mental taste. You, as an individual, are not compelled to swallow everything. We do not all think alike on every subject and it is a good thing, as it makes more variety, and variety is the spice of existence.

The half page advertisement of The Home Bank and Trust Company in this issue of The Times furnishes some reliable and interesting information for the tobacco growers. It shows from the official report of E. J. Watts, commissioner of commerce etc., that out of 24 tobacco markets in the State in 1914 Manning was in the lead as to prices. The average price paid for tobacco in 1915 in the entire State was \$4.31 per hundred, some markets running as low as \$3.30, while the average price paid by the Manning market was \$5.42. The Home Bank and Trust Company has always shown a lively interest in the welfare of the tobacco producer, as well as the farming interests generally. This reliable bank is soliciting your business, and deserves your consideration. Hon. Charlton DuRant, State Senator-elect, is President, and Mr. T. Mitch Wells is cashier. These courteous gentlemen are two well known to the public to need further commendation. We ask our readers to carefully read the advertisement of The Home Bank and Trust Company.

As an example of good business methods and vim and determination, Dickson's Drug Store deserves special notice. On the 17th of May this reliable drug concern was demolished by the storm. Although the building was a mass of ruin, and the stock of goods almost utterly destroyed, they moved into temporary quarters until they could rebuild. They have now moved back into their handsome and well equipped new building, and the place is one of the most convenient and up to date, as well as one of the most reliable drug stores in every particular to be found in the State. The honest and reliable business, with courteous men to run it, always commands a good patronage, and this is what Dickson's Drug Store receives. Dr. Dickson is the sole proprietor, and he always has competent and reliable and courteous men to serve the public. We invite our readers to examine the advertisement of this reliable house in this issue, and remember that when illness and death of my wife. May the blessing of God abide with them.

Card of Thanks.

Please allow me space in your paper to thank the good people of Turbeville for their many kindnesses to me during the illness and death of my wife. May the blessing of God abide with them.

in prices in July by about a dollar a hundred. If you doubt this statement you can get the figures from Commissioner of Agriculture, E. J. Watson, in Columbia.

This fact speaks for itself and is reason enough for you to sell your tobacco on the Manning market. If you want to sell your tobacco on some other market where you will get from one to two dollars less than in Manning, why, that is your privilege.

I am determined to do my part to make Manning the leading market in the State for high prices, as she has always been in the past.

I want to sell your tobacco, but whether or not you sell with me, bring it to Manning.

Try me with your next load, and forget that the war is on.

Dr. King's New Life Pills
The best in the world.

Friends!

Cothran & Coleman up at the Central Tobacco Warehouse in the heart of Manning, back of Levi Block, are still fighting low prices. Our forces have been re-inforced recently. We have gotten in a better supply of ammunition in the shape of much better tobacco for the past week.

The Emperor of Germany, the Czar of Russia, King George of England and the rulers of Europe are not doing any more for their enemies than we are. We realize that low prices is an enemy of the farmer. We realize that he is a submarine and that he will destroy the ship of progress if allowed to have his way.

Friends! Pick the green and burnt out of your tobacco and if low prices should loom up and cast one of his missiles at you he can only claim his own year cannon tobacco. Ask those that sell with us about our sales. I have been handling South Carolina tobacco since 1895. I know these tobaccos as well as any man in the State. I want every man that brings tobacco to Manning to divide with Cothran. I have worked hard and long to build up the Manning market, and I am still working. Bring me your next load of tobacco.
